Subject: it's un-American

█--

From 1990-2016 tax rates fell across the world to attract more businesses -- but not in the United States. Here, tax rates increased.

Instead of welcoming new business, ideas, and rewarding hard work, big government is penalizing Americans for their success.

To put it bluntly, our tax system is un-American.

Americans deserve a robust economic plan that simplifies the tax code, cuts taxes for middle-class families, restores our competitive edge, and reins in government spending and over regulation.

That's why I'm leading the fight to make sure Congress passes job-creating legislation that will relieve the tax burden and let Americans keep more of their hard earned cash.

Will you pitch-in \$15 to support our tax plan?

As a member of the Senate Finance Committee (the tax writing committee in the Senate) I have always fought for simpler and lower taxes -- and now with Donald Trump in the White House and the Obama Administration out of the way, we can get it done.

Together, we can relieve small businesses and workers of the tax burden and give the United States a competitive edge.

By chipping in \$15 today, you're supporting our fight for tax relief and showing my Democratic opponent, Jacky Rosen, that Nevada is tired of the ever increasing taxes.

The country known for the Boston Tea Party has become a country known for penalizing success.

This is our chance to go back to our fundamental values.

Chip-in \$15 to support our plan for tax reform and relief.

I will settle for nothing less than victory on tax code overhaul, and I hope you're with me.

Dean
