

**Nevada State Democratic Party**  
2021 Executive Officer Elections

# Judith Whitmer

Candidate for Chair

Dear Central Committee Members,

In my current position as Chair of the Clark County Democratic Party, we're already on the ground - engaging in our communities throughout the year to connect with people, be good neighbors and bring new voices and innovative ideas into the Party.

Our work as advocates in marginalized communities has led to the formation of more chartered constituency caucuses and unprecedented growth in Central Committee membership. Clark County has a waitlist of almost 500 people for the SCC. It's that engagement and a willingness to listen that makes people feel connected. Too often we refer to ourselves as the 'big tent' Party without actually providing opportunities for participation and representation. It's not enough to make the table bigger or pay lip service at election time.

Our future strength and success depends on our ability to build a Party that is responsive and accountable to the people. In addition, we've got to instill a sense of community that includes every County in Nevada. During the past few months, we've been mapping out a statewide coalition strategy to win in 2022 including school boards, city councils and judicial races. Over the next two months, our plan is to implement a pilot program for a reorganization of our GOTVGet Out the Vote program. We refuse to concede one single seat in the upcoming midterms. We are absolutely committed to working 24/7 to hold the Governor's office, our U.S. Senate seats and our legislative majority. Our Congressional Districts must remain in the hands of Democrats.

As a candidate for State Party Chair, I've brought together a diverse, experienced and immensely talented team that's as dedicated as I am to winning in 2022. We aren't just talking about it - we have a plan to win and the ability to devote the enormous amount of time and energy required to achieve success. Our progressive slate is committed to serving the State Central Committee and the Democratic Party. We are also dedicated to representing the people in our communities who place trust in us as Democrats to serve the needs of Nevadans. We humbly ask for your support and your vote.

In Solidarity,  
Judith
