Please state why you are seeking to run for this office:

When Americans came together on November 3rd, it wasn't just to make Joe Biden our next president—it was to affirm the promise of this country. The promise that everyone deserves a right to a job with livable wages. The promise of healthcare as a basic human right. The promise of affordable housing, education without the threat of debt, equal treatment under the law and a society that values people over profit. It was the promise that everyone has a future here—no matter their religion or race, gender identity or sexual orientation.

I am running to serve as your Chair because I believe in that promise. I am running because we need a party that holds our representatives accountable to the needs that unite us and the vision we all share. I'm running because we need leadership that involves, includes, and empowers working Nevadans like you and me to shape the world. I am proud of my proven record of success as a leader and an organizer within our Party here in Nevada, but I'm even prouder of what we're going to accomplish together. Rebuilding our country starts with rebuilding our party. United, we can make the promise of this country a reality at last. When we fight together, we win together!

Please state any experience that you would like to share that prepares you for this position please feel free to attach a bio):

From fundraising efforts on behalf of the Party averaging almost \$200,000 per year including over \$100K in a single month; personally recruiting nearly 1,000 Nevada Democrats to join the Clark County and Nevada State Democratic Party Central Committees; training hundreds of Nevada Democrats to participate in the 2020 Nevada caucuses; planning presidential galas; liaising with Presidential candidates; handling the media relations, press releases and marketing; coordinating procurement and budgets; and mobilizing GOTV operations—I have the extensive, hands on experience to successfully run the Nevada State Democratic Party. My 25+ years in engineering and operations, specifically in project management, also uniquely qualifies me for this position. A multi-billion dollar light rail transit system in Baltimore was my last official project before retiring to serve my community.
